

gardenARK™

- a good place to read a book
- a good place to write a novel
- a good place to escape the house
- a good place to work from home
- an extra bedroom when you need it
- a good place to watch the stars
- a good place to share the evening

- escape to the garden

Features:

- easy to assemble kit form
- planning permission not required for most circumstances
- made from trees, sheep, soil and grass
- designed to sit 'in' rather than 'on' the landscape
- big patio doors for summer
- patio deck to sit outside
- plant your own green roof to match your garden
- camouflage roof surfaces from above
- space for a fold away double bed, or lawnmower
- sheeps wool insulation
- 100% sustainable materials and FSC timber frame
- weatherboard cladding
- double glazed patio doors

Options:

- generous built in modular futon sofas, desks and office storage
- small log stove and flue
- durable monocrystalline solar powered lighting and laptop charging. PV array can be orientated through 360°
- wind turbine for sites exposed to the prevailing wind for extra winter charge
- a composting toilet and a wash handbasin filled by rainwater harvesting system
