

FANCY SOME FREE ELECTRICITY?

HURRY

get your applications
in by 10 October!

**IN FACT, WOULD YOU
LIKE THE ENERGY COMPANIES
TO PAY YOU?**

We can give you money towards a solar-PV system...

... And if you've less than £250 in your pocket after you've paid your household bills each month you could get it virtually for free.

On top of a standard Transition Streets grant, you may be able to get another grant and a loan that you can pay off with the new Feed in Tariff.* Once you've paid the loan off, the 20-year income is yours, tax-free.

* The FiT is money paid to you by energy companies for all the clean electricity you generate, and for what you export to the grid

Two steps to lower bills:

- 1 Find six nearby friends and neighbours who want to save money on bills and can make seven meetings in your homes
- 2 Apply to be a Transition Streets group on 01803 867 358 by 10 October

We'll give you a Transition Together workbook and facilitator to get your group started in cutting your energy bills and carbon emissions.

We can help you get free cavity wall and loft insulation, and upgrade your heating system. And we can help you or your landlord find out if you are eligible for a grant.

Open to households in:

Ashprington, Berry Pomeroy, Cornworthy, Dartington, Diptford, Halwell & Moreleigh, Harberton, Littlehempston, Marldon, Rattery, South Brent, Staverton, Stoke Gabriel and Totnes
