A healthy economy should be designed to thrive, not grow | Kate Raworth

 YouTube

What would a sustainable, universally beneficial economy look like? "Like a doughnut," says Oxford economist Kate Raworth. In a stellar, eye-opening talk, she explains how we can move countries out of the hole -- where people are falling short on life's essentials -- and...

Principles of a Pluralist Commonwealth: Introduction

 TheNextSystem.org

If the design of corporate capitalism is unable to sustain values of equality, genuine democracy, liberty, and ecological sustainability as a matter of inherent systemic architecture, what systemic...

Leverage Points: Places to Intervene in a System - The Donella Meadows Project

 The Academy for Systems Change

By Donella Meadows~ Folks who do systems analysis have a great belief in "leverage points." These are places within a complex system (a corporation, an economy, a living body, a city, an...

The Index of Systemic Trends

 TheNextSystem.org

One of the signs that a crisis is systemic, rather than purely political or economic, is that key indicators decline or stay the same regardless of changes in political power or business cycles....

The Open Book of Social Innovation - The Young Foundation

 The Young Foundation

The Open Book of Social Innovation - part of a series on methods and issues in social innovation - is about the many ways in which people are creating new and more effective answers to the...
